

**MAG07 Katherine**  
**RT 27/04/1989** (my office)

1. Age 23, ESW, living with her husband when he is in Manchester, Church of England (husband is a clergyman), heterosexual.

2. Plainly dressed, long hair tied back. A lot of self-confidence/assurance, but not at all brash or self-indulgent. Comes across as being a very open, educated and serious person, also had a sense of humour. Relaxed and seemed to find it easy to talk about these issues.

3. Doing a PHD in Management Studies, teaches part time. Shares an office with MELANIE who phoned us up for information about the research.

4. Sex Ed: Basic biology at school (went to a private girl's boarding school). A person came in to talk about abortion (prolife), contraception and relationships. She wants to be a teacher and would like to teach RE. We had an interesting conversation about how RE should treat sexuality and AIDS etc. Moral or practical issues. Aids knowledge very good. Has watched documentaries etc on it. Knows the distinction between HIV and AIDS, understands the latency period. Knowledge of contraception also good, had to persuade the FPC to let her have the cap rather than the pill -has good reasons (ref tape).

Risk: Very interesting on how risk is weighted up against the practical restraints of a relationship (ref tape).

Safe Sex: Knew about it, happy with it and thought that more should be said about it. Relationships Some of the discussion about this in relation to RE teaching which she feels should be about relationships. She is married now but has had sexual relationships in the past which she talked about in detail - why she had sex when she did.

Sexuality: Not covered individually but covered in other areas.

Peer Group: None really, working at [NAME OF UNIVERSITY] on PHD, husband in TOWN. Very good interview. She is interesting talking about sex and AIDs as a Christian liberal and as a woman. Very honest about herself, admits that it isn't easy to act on knowledge realising that if she can't who can.
